

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

THE TRIÖDER BINOCLES surpass to a remarkable extent the best glasses of the now generally used construction (opera and field glasses), as they possess at equal field of view 8 to 10 times greater magnifying power, or at equal magnifying power, an 8 to 10 times larger field of view, producing besides a decidedly sharper image. In principle the Triöder Binocle is a Kepler telescope with prisms as re-inverting agents for the image. They are eminently useful equally for the theater or travel, or for military, naval, hunting, racing, and regatta purposes. All binocles bear the name of my firm, and are obtainable at manufacturers' prices of all good opticians and jewelers, among them

The claim made by us that

"THE

HARDMAN PIANO

IS THE ONLY PIANO WHICH IMPROVES UNDER USAGE" is proved by the fact that the unanimous testimony of those who have bought the "HARDMAN" corroborates the statement. Its full, resonant tone is maintained through years of service, and an added brilliancy, without metallic quality, results through use.

PEGAMOID

TRADE MARK.

LEATHER.

SUPERIOR TO HIDE LEATHER. Having achieved a permanent success abroad, is now being manufactured and introduced in this country. Made in all shades of color, even white and delicate tints. Embossed in many beautiful designs, or in plain leather, grain, or flat. Matt or lustrous finish. Morocco, Pigskin, Pebble, Seal, Crocodile, Venetian, Cordova, and other hides are perfectly reproduced. The bright surface of the lower portion of the pattern is better retained than with hide leather. For wall decorations, furniture coverings, carriage fittings, car seats, car curtains, head linings, trunks, valises, traveling bags, spectacle cases, pocket books, bookbindings, etc., it is unrivaled. Does not contain oxidized or sulphurized oils or rubber. The surface of the leather cannot be split off, has no nasty odor; extremes of heat and cold do not affect it, stands exposure to weather. For cushions, etc., of yachts, it is superior to anything. It is proof against water, oil, grease, and dirt. Easily washed with soap and water, and can be antisepticated or disinfected. It will not peel, rot, crack, or get sticky, and is extraordinarily durable. It has the "feel" of real hide leather, and is far less easily scratched. Burns with difficulty. To insure against Imitation and Substitution, look for trademark, "Pegamoid," stamped on all goods. Circular and samples on application.

Aluminum Leather Surface.

A most remarkable novelty. Leather cloth and paper surfaced with aluminum. Smooth or beautifully embossed. Washable. Opens up an entirely new field in decoration and artistic effects in frosted silver. Applied like wall paper. Untarnished by sewer gas. Saves light in illumination.

Waterproof and Washable.

Book bindings, trunks, valises, awnings, tents, poster cloths, maps, cartridges, pocket-books, spectacle cases, fancy articles, etc.

Aluminum Paint.

Looks like frosted silver. Washable, untarnishable; water, oil, and grease-proof. Easily applied. Dries quickly. Superb for decoration, stables, harness, metal work, parts of machinery, pipes, radiators, seat frames, elevator fronts, ceilings, bicycles, parts of carriages, etc. Makes tarnished objects look better than new.

Bright Metal Protector.

Easily applied, forming an invisible film, and protecting polished steel, nickel-plate, etc., against rust and corrosion. Unequaled for harness-trappings, bicycles, carriage lamps, hardware in stock, etc.

Brass Lacquette No. 1.

Dries without brush marks, and protects polished brass surfaces against tarnish and exposure. Excellent for polished brass signs, copper pipes, etc.

Enamelette.

A tank composition for barrels, tanks, tunnels, machinery in mines and damp places, cellars, subways, metal structural work. Not affected by petroleum, vegetable oils, turpentine, water, salt air, deleterious gases, or atmospheric influences. Will not chip or check. Unrivaled in the cold storage and provision business.

Send for Pamphlet: What is "Pegamoid?" and Samples.

Goods exhibited at offices.

New Idea in Home Getting

Buy an Apartment

Combine with a few congenial families,
Select an apartment house,
Apportion it among you,
Move in
And instead of paying rent to a landlord
Pay us the money, which in a few years will result in
each of you owning your own Apartment.

It will give you immediate independence; save expenses of frequent movings; an assurance of good neighbors, and make you gloriously free from the monthly visit of the landlord for rent. And in addition it will give you ownership of the best property on Manhattan Island, that is constantly growing more valuable.

We have several plans by means of which you can commence at once to convert the money you will otherwise pay to the landlord for rent of an Apartment into the actual ownership of the very same Apartment; or, if you please, any other that will give you as good or better accommodation, and will make you the absolute owner of it in a few years without having inconvenienced you for a single moment. The money that you are now throwing away in rent will buy and pay for it.

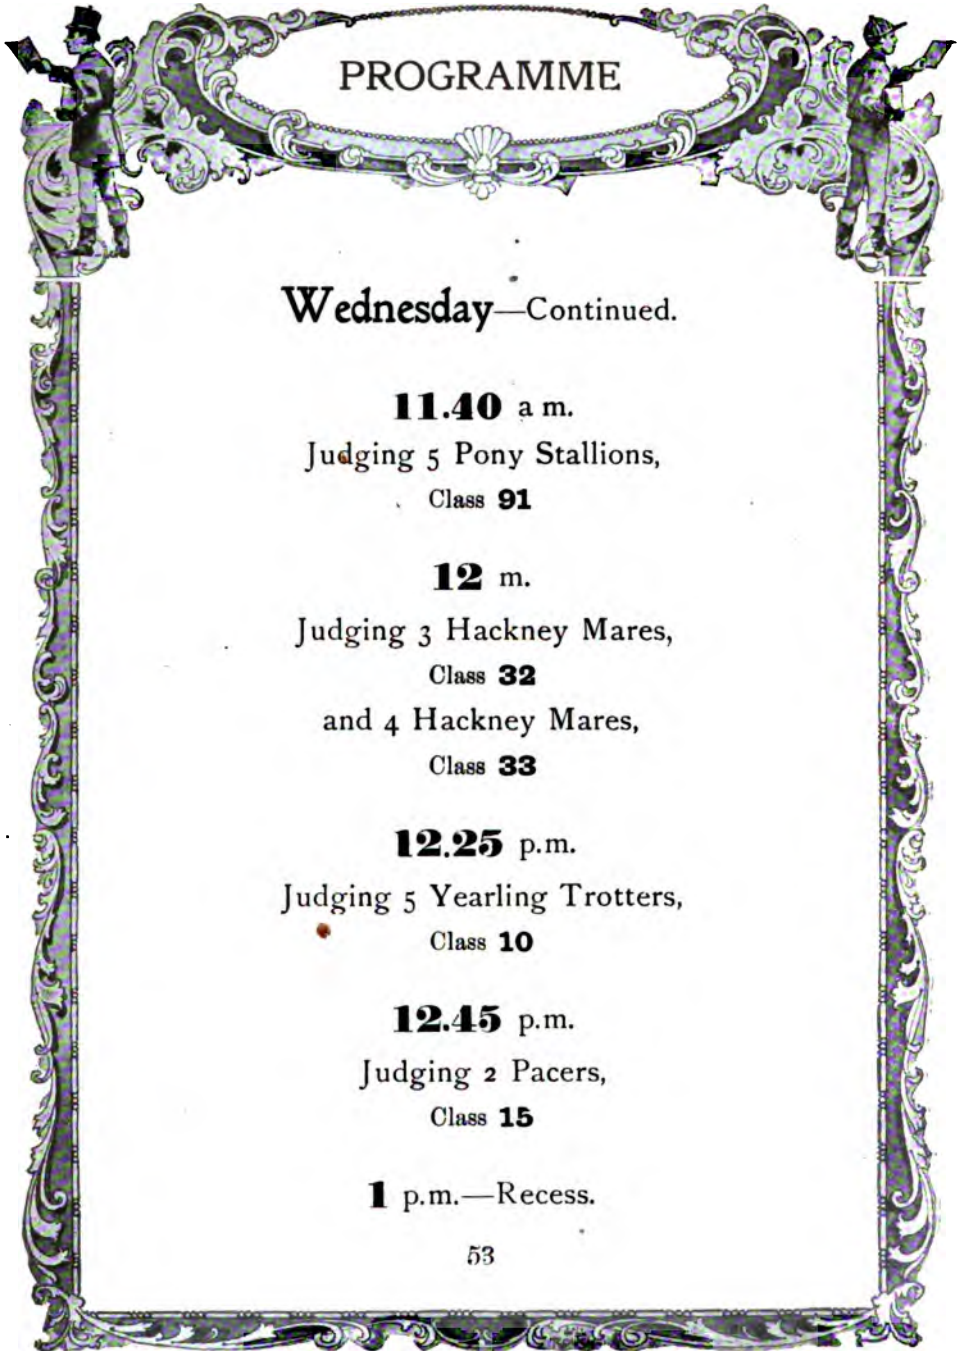

For those who do not like or find it inconvenient to live in the suburbs, this is a capital idea.

On the same lines upon which we have already bought more than Four Million Dollars' worth of Homes for other people.

The National Phonograph Co. has issued a dainty little booklet entitled, "Phonograph Short Stories." The design of the book is to show the innumerable practical uses of the Phonograph. The following story tells of Mrs. Openeer's "Voice Album."

ADDRESS DEPT. M.

COPYRIGHT, 1898.
NATIONAL PHONOGRAPH CO.

The recent hot and bloody work before Santiago, in Cuba, has made one of my wife's Voice Album records of inestimable value. Young Smith, of the 71st New York, was my cousin, and was among the first to try the effect of his voice on a wax cylinder.

His name comes out loud and clear, and then these words:—

"Of all the fish in sea or lake, The bloomin' codfish takes the cake."

It's funny, but it's sad, too; for poor Smith was shot

through the lungs by a Mauser bullet and died seven days afterward. When his father learned of the record we had of his voice, he bought the finest, most expensive phonograph to be had; and we gave him our cylinder, taking several copies or dupli-

cates of it for ourselves and his friends. This is easily done, you know, by connecting the "speaker" from the phonograph that is playing the original to the "recorder" of another machine, on which is a smooth blank.

Of course, the copy is a little indistinct—all duplicates are. The original Edison records such as you buy are always the best. But the copies we made were plain enough for us to distinguish Bert's voice, and we are proud of it, I can tell you, not only for the satisfaction of having a *hero* record in our collection, but also that we were able to be of service to his father; for the old gentleman holds that cylinder as one of his choicest possessions on earth.

Buy a Phonograph

If you think of buying a talking machine—not a phono, or a gram, or a graph, or any cheap imitation of the original invention—buy the genuine

Edison Phonograph

Sings, plays, talks. Reproduces sounds of all kinds—song of the lark, chirp of the cricket, barking of dogs. Operatic music, both vocal and instrumental; sacred songs; band selections; piano, cornet, banjo; voices of famous singers and orators; your own voice; your children's voices.

- THE STANDARD, . . . \$20.
- THE HOME, . . . \$30.
- THE SPRING MOTOR, . . . \$75.
- THE ELECTRIC, . . . \$75.

will reproduce any record, will make records, and will shave them off for use a second time. Fun for the whole family. Entertain your friends during the long winter evenings. A child can operate it. Wonderful!

All exhibitors entering their horses in the Qualified or Green Hunter classes, must furnish a certificate from the Master of the Hounds with whom their horses have been hunted. Forms of certificate will be furnished by this Association.

Only men or boys over fourteen years of age will be allowed to ride in the Hunter or Jumping classes.

N. B.—No horse having taken a first prize in the Hunter or Jumping classes at any of the Association's previous shows can be entered in the Hunter classes, but they may compete in the Corinthian, Jumping and Champion classes.

In all the Hunter and Jumping classes where the number of entries may make it desirable, the Association reserves to itself the right to order preliminary trials at an hour, of which ample notice will be given in the programme.
